## PROFILE

I am coursing system engineering at ULACIT. This university has been important for my professional development for all my improve in leadership that I have acquired and the opportunities that they have given to me for trainings in areas of my career and being in conferences like EXPOTELECOM. Working in the student's government has made me a person who knows how to deal with different kinds of people, people who think different than me. I have got the ability to communicate, deal and negotiate with people to take forward work.

## EDUCATION

### System Engineering

Latin American University of Science and Technology (ULACIT)

2013 - present

-Knowledge in Java, VB .Net, HTML, CSS and SQL.

-Basic knowledge in JavaScript, jQuery, Angular, NodeJS, mongoDB, ionic, Bootstrap, Arduino & Android.

### Computer Operator

Colegio Universitario Boston, 2009

## SKILLS

### Interpersonal Skills

Identified by my good communication, knowing how to listen people who have different points of view. This is very important to take decisions in the best way.

### Languages

-Spanish (native)

-English (advanced)

English in Chester

England
